brod Documentation

Release

2011, Datadog, Inc.

December 21, 2011

CONTENTS

brod is a Python client for the Kafka distributed publish/subscribe messaging service. It started as a fork of pykafka, but became a total rewrite as we started adding features.

It's named after Max Brod, Franz Kafka's friend and supporter.

Contents:

WRITING A DRIVER FOR KAFKA

This document has moved to the Kafka wiki.
